

XIX. International Conference on "Horizons in Hydrogen Bond Research"

September 11 – 17, 2011

Georg-August-Universität Göttingen, Germany

**Chair: Martin Suhm,
Universität Göttingen**

**Vice-Chair: Wouter Herrebout,
Universiteit Antwerpen**

Confirmed speakers:

- E. Arunan (Bangalore)
- A. Berkessel (Köln)
- A. D. Buckingham (Cambridge)
- P.-T. Chou (Taipei)
- F. Fabbiani (Göttingen)
- A. Fujii (Sendai)
- M. Gerhards (Kaiserslautern)
- E. Gloaguen (Saclay)
- S. Grimme (Münster)
- M. Hippler (Sheffield)
- S. Horiuchi (Tsukuba)
- P. Jungwirth (Prague)
- H. Kjaergaard (Copenhagen)
- D. Laage (Paris)
- R. Ludwig (Rostock)
- Y. Matsumoto (Hyōgo)
- B. Mennucci (Pisa)
- A. Olbert-Majkut (Wrocław)
- Y. Xu (Edmonton)
- K. Yagi (Urbana-Champaign)

Important dates:

Abstract submission deadline July 10

Hot topic talk selection August 10

Contributions in the form of posters and talks are very welcome. Selected presentations will be highlighted as "hot topic talks".

Excursion to world cultural heritage sites: Town of Goslar and Rammelsberg.

The conference covers all aspects of hydrogen bonds and will be organized from weak via medium strength through to strong interactions as well as from molecular via mesoscopic through to macroscopic phenomena. It includes a podium discussion on the new definition of the hydrogen bond. The PCCP themed issue on "Weak Hydrogen Bonds – Strong Effects?" will be displayed. A two-day workshop for graduate students ("Hydrogen Bonds Between the Disciplines") will precede the conference. For more information please visit www.hbond.de.
